

SAFETY DATA SHEET

1. Identification

| Product identifier | Rapid Set Cement All |
|-------------------------------|---|
| Other means of identification | |
| Product code | 120010055, 120012000, 120013000, 120020010, 120020025, 120040055 |
| Recommended use | Industrial use. |
| Recommended restrictions | Workers (and your customers or users in the case of resale) should be informed of the potential presence of respirable dust and respirable crystalline silica as well as their potential hazards. Appropriate training in the proper use and handling of this material should be provided as required under applicable regulations. |
| Manufacturer/Importer/Supplie | r/Distributor information |
| Company name | CTS Cement Manufacturing Corporation |
| Address | 11065 Knott Ave Suite A |
| | Cypress, CA 90630 |
| | United States |
| Telephone | 1-800-929-3030 |
| E-mail | info@ctscement.com |
| Contact person | Safety Officer |
| Emergency telephone number | 1-800-929-3030 (8 AM - 5 PM) |
| 2 Hazard(s) identification | |

2. Hazard(s) identification

| Physical hazards | Not classified. | | |
|----------------------|--|---|--|
| Health Hazards | Skin corrosion/irritation | Category 2 | |
| | Serious eye damage/eye irritation | Category 1 | |
| | Carcinogenicity | Category 1A | |
| | Specific Target Organ Toxicity, Single Exposure | Category 3 respiratory tract irritation | |
| | Specific Target Organ Toxicity, Repeated Exposure | Category 2 (Lungs) | |
| | Not classified. | | |
| OSHA defined hazards | | | |

Label elements

| Signal word | Danger | |
|-------------------------|---|--|
| Hazard statement | Causes skin irritation. Causes serious eye damage. May cause cancer. May cause respiratory irritation. May cause damage to organs (Lungs) through prolonged or repeated exposure. | |
| Precautionary statement | | |
| Prevention | Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe dust. Wash thoroughly after handling. Use in a well-ventilated area. Wear protective gloves/protective clothing/eye protection/face protection. | |
| Response | If exposed or concerned: Get medical advice/attention. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor. If on skin: Wash with plenty of water. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash before reuse. If inhaled: Remove person to fresh air and keep comfortable for breathing. Call a poison center/doctor if you feel unwell. | |
| Storage | Keep container tightly closed. Store in dry location. | |

3. Composition/information on ingredients

Disposal

| Chemical name | | CAS number | % |
|--|---|------------------------------------|------------------------|
| Calcium Sulfoaluminate Cement | | 960375-09-1 | 40-60 |
| Silica Sand, quartz | | 14808-60-7 | 40-60 |
| Sodium Sulfate | | 7757-82-6 | 0-4 |
| Methanal | | 50-00-0 | 0.0-0.1 |
| 4. First-aid measures | If dust from the material is inhaled, remo | we the affected person immediate | ely to fresh air. Call |
| | physician if symptoms develop or persis | | , |
| Skin contact | Remove contaminated clothing. Wash with plenty of soap and water. If skin irritation occurs: Ge medical advice/attention. Wash contaminated clothing before reuse. | | |
| Eye contact | Do not rub eyes. Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately. | | |
| Ingestion | Immediately rinse mouth and drink plenty of water. Call an ambulance and take these instruction Get medical attention if symptoms occur. | | |
| Most important symptoms/effects, acute and delayed | Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. Upper respiratory tract irritation. Coughing. Discomfort in the chest. Shortness of breath. Wheezing. Skin irritation. | | |
| Indication of immediate medical attention and special | Provide general supportive measures ar Symptoms may be delayed. | nd treat symptomatically. Keep vic | tim under observat |

If you feel unwell, seek medical advice (show the label where possible). Ensure that medical **General information** personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance.

5. Fire-fighting measures

treatment needed

| Suitable extinguishing media | Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2). |
|---|---|
| Unsuitable extinguishing media | Do not use water jet as an extinguisher, as this will spread the fire. |
| Specific hazards arising from the chemical | During fire, gases hazardous to health may be formed. |
| Special protective equipment and precautions for firefighters | Self-contained breathing apparatus and full protective clothing must be worn in case of fire. |
| Fire fighting equipment/instructions | Move containers from fire area if you can do so without risk. |

| General fire hazards | No unusual fire or explosion hazards noted. | _ |
|----------------------|--|---|
| Specific methods | Use standard firefighting procedures and consider the hazards of other involved materials. | |
| | | |
| | | |

6. Accidental release measures

| Personal precautions, protective equipment and emergency procedures | Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe dust. Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fume at levels exceeding the exposure limits. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS. | | |
|---|---|--|--|
| Methods and materials for containment and cleaning up | Stop the flow of material, if this is without risk. If sweeping of a contaminated area is necessary use a dust suppressant agent which does not react with the product. Collect dust using a vacuum cleaner. Minimize dust generation and accumulation. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water. For waste disposal, see section 13 of the SDS. | | |
| Environmental precautions | Avoid discharge into drains or water courses. | | |
| 7. Handling and storage | | | |
| Precautions for safe handling | Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Provide appropriate exhaust ventilation at places where dust is formed. Minimize dust generation and accumulation. Do not breathe dust. Do not get this material in contact with eyes. Avoid prolonged exposure. Wear appropriate personal protective equipment. Observe good industrial hygiene practices. | | |
| Conditions for safe storage, including any incompatibilities | Store in original tightly closed container. Store in dry location. Store away from incompatible materials (see Section 10 of the SDS). | | |

8. Exposure controls/personal protection

Occupational exposure limits

US. OSHA Table Z-3 (29 CFR 1910.1000)

| Components | Туре | Value | Form |
|------------------------------------|------|-------------|----------------------|
| Silica, quartz (CAS 14808-60-7) | TWA | 0.3 mg/m3 | Total dust. |
| | | 0.1 mg/m3 | Respirable. |
| US. ACGIH Threshold Limit Values | | 2.4 mppcf | Respirable. |
| Components | Туре | Value | Form |
| Silica, quartz (CAS 14808-60-7) | TWA | 0.025 mg/m3 | Respirable fraction. |

US. NIOSH: Pocket Guide to Chemical Hazards

| Components | Туре | Value | Form |
|------------------------------------|---|------------|------------------|
| Silica, quartz (CAS 14808-60-7) | TWA | 0.05 mg/m3 | Respirable dust. |
| Biological limit values | No biological exposure limits noted for the ingredient(s). | | |
| Exposure guidelines | Occupational exposure to nuisance dust (total and respirable) and respirable crystalline silica should be monitored and controlled. | | |

Appropriate engineering controls Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Ventilation should be sufficient to effectively remove and prevent buildup of any dusts or fumes that may be generated during handling or thermal processing. If engineering measures are not sufficient to maintain concentrations of dust particulates below the Occupational Exposure Limit (OEL), suitable respiratory protection must be worn. Eye wash facilities and emergency shower must be available when handling this product.

Rapid Set Cement All

Individual protection measures, such as personal protective equipment

| Eye/face protection | Wear safety glasses or safety goggles unless full face respirator is in use. |
|-----------------------------------|--|
| Skin protection | |
| Hand protection | Wear appropriate chemical resistant gloves. |
| Other | Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended. |
| Respiratory protection | Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fume at levels exceeding the exposure limits. |
| Thermal hazards | Wear appropriate thermal protective clothing, when necessary. |
| General hygiene considerations | When using, do not eat, drink or smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Observe any medical surveillance requirements. |

9. Physical and chemical properties

Appearance

| • • | |
|---|-----------------------------|
| Physical state | Solid. |
| Form | Powder. |
| Color | Tan. |
| Odor | Low. |
| Odor threshold | Not available. |
| рН | 11 – 12 when wet |
| Melting point/freezing point | Not applicable. |
| Initial boiling point and boiling range | Not applicable. |
| Flash point | Not applicable. |
| Evaporation rate | Not applicable. |
| Flammability (solid, gas) | Non combustible. |
| Upper/lower flammability or expl | osive limits |
| Flammability limit - lower (%) | Not applicable. |
| Flammability limit - upper (%) | Not applicable. |
| | |
| Vapor pressure | Not applicable. |
| Vapor density | Not applicable. |
| Relative density | 2.7-3.1 @ 20°C |
| Solubility(ies) | |
| Solubility (water) | Not available. |
| Partition coefficient | Not applicable. |
| (n-octanol/water) | |
| Auto-ignition temperature | Not applicable. |
| • | 2460 °F (1350 °C) |
| Decomposition temperature | Not applicable. |
| Viscosity | |
| Other information | |
| Bulk density | 60 lb/ft ³ |
| Partition coefficient | Not applicable. |
| (oil/water) | |
| VOC (Weight %) | 0 g/l when mixed with water |
| | |

10. Stability and reactivity

| Reactivity Chemical stability Possibility of hazardous reactions | The product is stable and non-reactive under normal conditions of use, storage and transport. Material is stable under normal conditions. No dangerous reaction known under conditions of normal use. |
|---|---|
| Conditions to avoid | Avoid temperatures exceeding the decomposition temperature. Contact with incompatible materials. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). |
| Incompatible materials | Powerful oxidizers. |
| Hazardous decomposition products | Carbon oxides. Sulfur oxides. Silicium oxide. |

11. Toxicological information

Information on likely routes of exposure

| Inhalation | May cause damage to organs through prolonged or repeated exposure by inhalation. Inhalation of dusts may cause respiratory irritation. Prolonged inhalation may be harmful. |
|--|---|
| Skin contact | Causes skin irritation. Prolonged contact with wet cement/mixture may cause burns. |
| Eye contact | Causes serious eye damage. Prolonged contact with wet cement/mixture may cause burns. |
| Ingestion | Swallowing may cause gastrointestinal irritation. |
| Symptoms related to the physical, chemical and toxicological characteristics | Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. Upper respiratory tract irritation. Coughing. Discomfort in the chest. Shortness of breath. Wheezing. Skin irritation. |

Information on toxicological effects

| Acute toxicity | May cause respiratory irritation. |
|-----------------------------------|-----------------------------------|
| Skin corrosion/irritation | Causes skin irritation. |
| Serious eye damage/eye irritation | Causes serious eye damage. |

Respiratory or skin sensitization

| Respiratory sensitization | No data available. |
|---------------------------|--|
| Skin sensitization | No data available. |
| Germ cell mutagenicity | No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic. |
| Carcinogenicity | May cause cancer. In 1997, IARC (the International Agency for Research on Cancer) concluded that crystalline silica inhaled from occupational sources can cause lung cancer in humans. However in making the overall evaluation, IARC noted that "carcinogenicity was not detected in all industrial circumstances studied. Carcinogenicity may be dependent on inherent characteristics of the crystalline silica or on external factors affecting its biological activity or distribution of its polymorphs." (IARC Monographs on the evaluation of the carcinogenic risks of chemicals to humans, Silica, silicates dust and organic fibres, 1997, Vol. 68, IARC, Lyon, France.) In June 2003, SCOEL (the EU Scientific Committee on Occupational Exposure Limits) concluded that the main effect in humans of the inhalation of respirable crystalline silica dust is silicosis. "There is sufficient information to conclude that the relative risk of lung cancer is increased in persons with silicosis (and, apparently, not in employees without silicosis exposed to silica dust in quarries and in the ceramic industry). Therefore, preventing the onset of silicosis will also reduce the cancer risk" (SCOEL SUM Doc 94-final, June 2003) According to the current state of the art, worker protection against silicosis can be consistently assured by respecting the existing regulatory occupational exposure limits. Occupational exposure to respirable dust and respirable crystalline silica should be monitored and controlled. |

| IARC Monographs. Overall E | Evaluation of Carcinogenicity | | | |
|---|--|--|--|--|
| Silica, quartz (CAS 14808-60-7) | | 1 Carcinogenic to humans. | | |
| NTP Report on Carcinogens | | | | |
| Silica, quartz (CAS 14808-60-7) | | Known To Be Human Carcinogen. | | |
| | d Substances (29 CFR 1910.10 | 01-1050) | | |
| Not listed. | | | | |
| Reproductive toxicity | May damage fertility or the unborn child. | | | |
| Specific target organ toxicity - single exposure | May cause respiratory irritation. | | | |
| Specific target organ toxicity - repeated exposure | May cause damage to organs (Lungs) through prolonged or repeated exposure. | | | |
| Aspiration hazard | Due to the physical form of the | product it is not an aspiration hazard. | | |
| Chronic effects | Prolonged or repeated exposure may cause lung injury, including silicosis. May cause skin disorders if contact is repeated or prolonged. | | | |
| 12. Ecological information | | | | |
| Ecotoxicity | The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. | | | |
| Persistence and degradability | No data is available on the degradability of this product. | | | |
| Bioaccumulative potential | No data available. | | | |
| Mobility in soil | No data available. | | | |
| Other adverse effects | | al effects (e.g. ozone depletion, photochemical ozone creation global warming potential) are expected from this component. | | |
| 13. Disposal consideration | IS | | | |

Local disposal regulationsDispose in accordance with all applicable regulations.Hazardous waste codeThe waste code should be assigned in discussion between the user, the producer and the waste
disposal company.Waste from residues / unused
productsDispose of in accordance with local regulations. Empty containers or liners may retain some
product residues. This material and its container must be disposed of in a safe manner (see:
Disposal instructions).Contaminated packagingEmpty containers should be taken to an approved waste handling site for recycling or disposal.
Since emptied containers may retain product residue, follow label warnings even after container is
emptied.

14. Transport information

Disposal instructions

DOT

Not regulated as dangerous goods.

IATA

Not regulated as dangerous goods.

IMDG

Not regulated as dangerous goods.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable.

15. Regulatory information

US federal regulations

This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.
